

AIT WITHOUT BORDERS

A 6-MONTH WEBINAR SERIES

STALLERGENES  GREER
IN COLLABORATION WITH

Advancing Grass Allergy Treatment: Case-Based Insights.

February 25, 2025

7:00 PM – 9:00 PM
(KSA Local Time)

Webinar via Zoom

SPEAKERS: Dr. Khaled Al Asad & Dr. George Juvelekian

The objectives and benefits of Allergen Immunotherapy educational modules:

In-Depth Knowledge:

Participants gain comprehensive, evidence-based understanding of allergen immunotherapy (AIT), including foundational and advanced concepts.

Personalized Treatment:

Emphasis on personalized medicine, teaching how to use diagnostic tools like molecular IgE testing to tailor treatment plans for individual patients.

Best Practices:

Expert-led lectures focus on applying AIT, particularly sublingual immunotherapy, for optimal clinical outcomes.

Enhanced Patient Management:

Learn to improve patient outcomes by managing allergy treatment effectively, using predictive biomarkers to guide treatment strategies.

Cutting-Edge Techniques:

Exposure to the latest AIT research and innovations, enabling participants to apply advanced techniques in clinical practice and enhance patient outcomes through evidence-based approaches.

Expert Insights:

Access to knowledge from leading AIT experts, ensuring education is current, relevant, and based on the latest scientific research.

Continuous Learning:

Modules support ongoing professional development, helping attendees stay updated with evolving practices and new treatments.

Evidence-Based Practice:

Focus on evidence-based education to help professionals make informed decisions, improving patient care and outcomes.

Patient-Centered Care:

Encourages a patient-centered approach, prioritizing individual needs and preferences in allergy treatment using immunotherapy.

MANAGED BY:

STALLERGENES  GREER

JOIN US FOR AN EXCITING JOURNEY IN ALLERGEN IMMUNOTHERAPY EDUCATION!

Led by international experts and pioneers in allergy care, this regional program delves into the latest evidence-based approaches in respiratory allergy & Allergen Immunotherapy (AIT).

List of topics to be covered in the program:

- Allergic Diseases: Diagnosis, Management, and Identifying the Right Patient for AIT to Ensure Long-Term Adherence.
- Advancing Grass Allergy Treatment: Case-Based Insights.
- HDM-Induced Allergic Rhinitis: Burden, Diagnosis, and Improved Outcomes.
- AIT Mechanisms and Guidelines: Selecting the Best Route and Managing Polysensitized Patients.
- Addressing Contraindications in AIT: Solutions and Innovations.
- Exploring New Frontiers in AIT: Myths vs. Facts.

Sessions will be led by international experts in the field of allergy:

- Dr. Andrey Kamaev, Russia
- Dr. Maryam Al Nesf, Qatar
- Dr. Carla Irani, Lebanon
- Dr. Adeeb Bulkhi, KSA
- Dr. Khaled Al Asad, Jordan
- Dr. Elena Latysheva, Russia
- Dr. Imad Koshak, KSA
- Dr. George Juvelekian, Lebanon
- Dr. Pierre Hajj, Lebanon
- Dr. Hossam Malibari, KSA
- Dr. Hamad Alhameli, UAE
- Dr. Shuayb Elkhalfifa, UAE

We look forward to your attendance, and feel free to invite your colleagues!
